# Dining Chair Buyer's Checklist

Comfort and care questions to ask before you choose

## Comfort Questions

1. **Sit in the chair for a few minutes before you decide, not just a quick test**
   Seat depth and backrest angle affect long meals more than they show up in a quick sit-down.
2. **Check how the chair height relates to your table height**
   Ask your design consultant whether the pairing feels right for your specific table.

## Care Questions

1. **Ask what cleaning code the fabric carries before you buy, not after a spill**
   Knowing the code in advance means you can plan for it rather than guessing later.
2. **Ask whether the fabric is a performance fabric and what its manufacturer recommends**
   Manufacturer care guidance is more reliable than general cleaning advice.
3. **Consider felt or rubber pads for wood chair legs if your flooring is a concern**
   Check with your flooring installer for guidance specific to your floor.

## Household Questions

1. **Think about how often spills happen at your table before choosing a fabric**
   A busier household may want to prioritize an easier cleaning code.
2. **Ask about reupholstering if you expect to change the look down the road**
   Wood tone is fixed unless refinished, while fabric can often be changed later.

**Bring this checklist with you when you visit our showroom to compare chairs in person.**
