

Coffee Table Pairing Guide

Modern Sense Furniture - Toronto and GTA Guide 2026

Measure before you shop

1 Sofa seat height

Your reference for table height. Aim level to two inches below it.

2 Sofa length

Target a table one half to two thirds of this length.

3 Legroom gap

Leave 14 to 18 inches between the sofa edge and the table.

4 Walkways

Keep at least 30 inches of clear path around the seating group.

Match shape and material

1 Boxy sofa or sectional

Rectangle or oval in wood or matte stone.

2 Curved or boucle sofa

Round or organic oval in glass or light stone.

3 Leather sofa

Metal base with glass or smoked glass to stay sleek.

4 Small condo sofa

Oval or nesting tables in glass or slim metal to save space.
