

Velvet and Boucle Care Checklist

Modern Sense Furniture - Toronto and GTA Guide 2026

Weekly routine

1 Vacuum gently

Soft brush attachment on low suction to lift grit before it wears the fabric.

2 Brush velvet pile

Groom in one direction to keep the sheen even and prevent crushing.

3 Lint roll boucle

Lifts hair and dust without pulling the loops.

4 Rotate cushions

Spread sitting, sun, and wear evenly across the piece.

Handle problems fast

1 Blot spills, never rub

Work outside in, keep velvet damp not wet, then air dry.

2 Shave boucle pills

Fabric shaver or sweater comb, gently, without catching loops.

3 Reset crushed velvet

Steam a few inches away, then brush the pile back up.

4 Know your code

W, S, S/W, or X on the tag decides your cleaning method. Call a pro for X.
